9. Team performance board
10. Earn & Refer
11. Settings & profile photo
12. Offer letter & Info Doc (when required)
13. Quick FAQ & troubleshooting

1. Getting started

Your team workspace is at **www.inmailly.com/team**. Bookmark it on your phone and laptop.

New members — register

- 1 Go to </team/register> (you need an **invite code** from admin).
- 2 Fill in full name, email, WhatsApp/phone (with country code, e.g. +92...), password, and invite code.
- 3 Click [Create account →](#)
- 4 Check your email and click **Verify email & join team**.
- 5 Return to </team/login> and sign in.

Join the team
Invite code required - email verification required

FULL NAME

EMAIL

WHATSAPP / PHONE

Include country code so admin can reach you.

PASSWORD

CONFIRM PASSWORD

INVITE CODE

[Create account →](#)

Already have an account? [Log in](#)

Highlighted: ① WhatsApp/phone ② Invite code (required) ③ Create account button

Returning members — log in

- 1 Go to </team/login>
- 2 Enter email and password → [Log in →](#)
- 3 If email not verified, use [Resend verification email](#) below the form.

The image shows the 'Join the team' registration form on the InMaily platform. The form is titled 'Join the team' with a sub-note 'Invite code required — email verification required'. It contains several input fields: 'FULL NAME', 'EMAIL', 'WHATSAPP / PHONE' (with a placeholder '+92 300 1234567' and a note 'Include country code so admin can reach you'), 'PASSWORD', 'CONFIRM PASSWORD', and 'INVITE CODE'. A 'Create account →' button is at the bottom, along with a link 'Already have an account? Log in'. Three numbered callouts (1, 2, 3) are overlaid on the form: 1 points to the 'EMAIL' field, 2 points to the 'PASSWORD' field, and 3 points to the 'Log in' link.

Highlighted: ① Email · ② Password · ③ Log in

2. Recommended daily workflow

Scripts → Work Links → Open LinkedIn profile → Send outreach → Mark complete →
Add lead → Log replies

Golden rule: Never skip marking a link complete after you use it — that keeps your stats accurate and frees the pipeline for the team.

3. Home / Hub (/team/hub)

After login you land on **Welcome back, {your name}**. Use the left sidebar to navigate.

Sidebar menu: Home · Work Links · Scripts · My Leads · Team performance · Responses · Reply Assistant · Earn & Refer · Settings

4. Scripts (/team/scripts)

Copy outreach text **before** you open Work Links. Tap a script to expand it.

- 1 Open **Scripts** in the sidebar.
- 2 Tap **Add Note** (LinkedIn connection note, max 350 chars) or **InMail** (Sales Navigator, up to 1,900 chars).
- 3 Use **Copy** on **Subject** and **Message** separately.
- 4 Paste into LinkedIn when you run outreach on a **Usual** link (manual mode).

5. Work Links (/team/links)

This is where you get LinkedIn profile URLs to work on.

Get links from the pool

BUTTON	WHAT IT DOES	RULES
Get Usual links	Standard manual outreach with Scripts	Up to 35 links; need fewer than 5 active Usual links first
Get Intelligence links	AI writes custom InMail from screenshot	Up to 20 links; must have 0 active Intelligence links before requesting more

Three tabs

- **Available** — pool links you can claim
- **My active** — links assigned to you now
- **Used** — completed links (history)

Claim a link

- 1 On **Available**, click [Claim link](#).
- 2 Choose mode:
 - 3 ♦ **Intelligence** (recommended) — AI personalized InMail from profile screenshot
 - 4 **Usual** — open profile and paste Scripts manually
- 5 Click [Open profile ↗](#) to open LinkedIn in a new tab.

Usual link — complete

- 1 Open profile → send Add Note or InMail using Scripts.
- 2 Back on InMaily, click [Mark complete](#).
- 3 Optionally click [+ Add as lead](#) if they responded or you want to track them.

6. Intelligence InMail (screenshot → AI)

For **Intelligence** links only. The AI reads the profile from your screenshot and writes a custom subject + InMail body.

- 1 Click [Open LinkedIn profile ↗](#) on the link card.
- 2 On the profile, take a screenshot:
 - 3 **Windows:** Win + Shift + S → crop the profile area
 - 4 **Mac:** Cmd + Shift + 4
- 5 On InMaily, click [🔗 Paste screenshot](#) (or Ctrl+V in the modal).
- 6 Click [🔗 Generate personalized InMail](#)
- 7 Copy **Subject** and **InMail body** → paste into LinkedIn InMail.
- 8 After sending on LinkedIn, click [Sent – mark complete](#).

Tip: Crop the screenshot to show name, headline, and about section — not the whole screen. Better crop = better message.

Important: Always click *Sent — mark complete* after you send on LinkedIn. Your used-link count and leaderboard depend on it.

7. My Leads (/team/leads)

Log everyone who responds or is worth tracking.

Add a new lead

- 1 Open **My Leads** in the sidebar (or [+ Add as lead](#) from a Work Link).
- 2 Fill in: First name (required), Last name, LinkedIn URL, Email, Phone.
- 3 Set **Response status** (New, Contacted, Replied, Interested, etc.).
- 4 Add notes: what they said, next step, meeting time.
- 5 Click [Add Lead →](#)

From Work Links (prefilled)

When you click [+ Add as lead](#) on a link card, the LinkedIn URL is filled automatically. You only add name + status + notes.

Lead statuses

STATUS

WHEN TO USE

New	Just added, no reply yet
Contacted	You reached out, waiting
Replied	They wrote back — shows on Responses page
Interested	Positive signal
Meeting booked	Use  Book meeting button in lead row
Follow Up	Need to chase later
Not Interested	Closed — not a fit
Deal closed	Check Deal closed in thread when they sign / pay

Lead thread (conversation log)

- 1 Click  [Thread](#) on any lead row.
- 2 Add messages — toggle sender: **team** (you) or **lead** (prospect).
- 3 When the lead sends a message, set sender to **lead** → status auto-updates to Replied.
- 4 When deal wins, check **Deal closed** — team celebration banner may appear for 24h.

8. Responses & Reply Assistant

Responses (</team/responses>)

Shows leads who **replied**, are **interested**, or need **follow up**. Open any card → [View thread](#) to continue the conversation.

Reply Assistant (</team/reply-assistant>)

AI helps you reply to LinkedIn threads from a screenshot.

- 1 Click [+ New](#) to create a thread (prospect name + optional company/LinkedIn URL).
- 2 Screenshot the LinkedIn conversation (Win+Shift+S).
- 3 Paste screenshot in Reply Assistant (Ctrl+V).
- 4 Click [Generate reply](#) or [Meeting link reply](#) if sending a booking link.
- 5 Edit the draft if needed → [Copy reply](#) → paste on LinkedIn.
- 6 Click [✓ Mark sent](#) (or Mark sent + meeting booked).

9. Team performance (</team/performance>)

Leaderboard for the whole team. Your rank is based on links used, leads, deals closed, and referrals.

- **Intelligence links** score slightly higher than Usual links.
- **Deals closed** give the biggest score boost.
- Check **Your rank** at the top and sort the table by Productivity, Used, Leads, or Deals.

Focus on consistent daily output: claim links → complete them → log leads → follow up on responses.

10. Earn & Refer (</team/referrals>)

- 1 Open **Earn & Refer** in the sidebar.
- 2 Copy your **shareable link** or referral code.
- 3 Share with people who might join as outreach workers.
- 4 When they register and convert, you earn (shown in Earnings history).

11. Settings (</team/settings>)

- **Upload profile photo** — circular avatar on leaderboard (prompt appears until you upload).
- **WhatsApp / phone** — keep updated so admin and team leader can reach you.
- Name and email changes require admin — contact your team leader.

12. Offer letter & Info Doc (when admin requests)

Red/amber banners on Home mean action is required.

Offer letter (</team/contract>)

- 1 Read the agreement scroll box.
- 2 Check the confirmation box.
- 3 Sign with your finger/mouse on the signature pad.
- 4 Click [Sign & submit agreement](#) .

Info Doc (</team/info-doc>)

Upload ID photos, address, emergency contact, education, and employment details when admin sends the request. Click [Submit Info Doc](#) when complete.

13. FAQ & troubleshooting

PROBLEM	FIX
Can't log in	Verify email first; use Resend verification. Check you're on /team/login not /campaign/login.
No links in pool	Wait for admin to import links, or try again later. Check Available tab count.
Can't get more Intelligence links	Finish or release your current Intelligence links first (max 0 active before new batch).
AI InMail failed	Retake screenshot — crop profile clearly. Check internet. Tell admin if error persists.
Lead not on Responses	Set status to Replied/Interested, or log an inbound message with sender = lead in Thread.
Stats look wrong	Make sure you clicked Mark complete after each send.

Need help? Message your team leader or admin on WhatsApp.
